

quality equipment, securing maximum hygiene

Passion for Hygiene

Take advantage of our knowledge

Elpress is the leading specialist in the field of industrial hygiene. We focus on delivering total solutions: customer-focused systems, professionally integrated into your business process. By simplifying processes and sharing our knowledge, our wide product range enables us to add value to your business. Take advantage of our knowledge and let one of our specialists advice you.

Personal hygiene functional, high-quality and hygienically designed

Elpress is the leading specialist in the field of industrial hygiene. We focus on delivering total solutions: customer-focused systems, professionally integrated into your business process. By simplifying processes and sharing knowledge, we can add value to your business with a complete range of products.

Personal hygiene

Efficient personal hygiene can not be underestimated, especially in production environments where the risk of contamination poses great danger. Whether it's a wash basin, apron cleaner or a built-in hygienic entrance, our product range enables us to offer you a solution for every challenge. Systems produced in-house with an Elpress character; functional, high quality and hygienically designed.

Service

Service is our keyword. After you invest in our products, we continue to work with you. For maintenance and/or repairs, our daily operating mobile service vans carry the right equipment and knowledge on board. This enables us to provide you with optimal disposal in the short and long term. A complete package of solutions, therefore, always with a strong focus on you as our customer. Elpress is an ambitious organisation, and we can justifiably say we have a passion for hygiene!

Our development principles

The four basic elements of our approach:

Time

Chemicals

Mechanical force

"To be the first choice for hygienic products, by developing leading solutions and providing added value while spreading our knowledge and passion for hygiene"

Personal hygiene

functional, high-quality and hygienically designed

Efficient personal hygiene can not be underestimated, especially in production environments where the risk of contamination poses great danger. Elpress can play an eminent role in reducing these risks. To prevent the risk of contamination in the broadest sense of the word, we offer you several possibilities: from sterilisation baths to complete hygiene entrances and from boot racks to wash basins. Our products and installations are used throughout the food processing industry, and are produced entirely in-house.

To get the most out of our products, we manufacture them with adjustable settings. Quality through flexibility.

Our sensor-operated wash basin come with legionella prevention by means of automatic rinsing at set times. Rinsing can be set to between 24 and 78 hours after the last use.

A large number of our personal hygiene products are certified by HACCP International. This means that our products can be used perfectly in a food handling environment where food safety control is paramount.

We provide a 4-year warranty on our brushes as standard. The brushes are also HACCP/IFS suitable and thus safe for contact with foodstuffs.
